

# MECO'2022 AWARDS

## The best paper:

163: Kevin Hutto, Vincent Mooney and Santiago Grijalva:

### **RanCompute: Computational Security in Embedded Devices via Random Input and Output Encodings**

Georgia Institute of Technology, United States

## The best student paper:

114: Naomi Stricker and Lothar Thiele:

### **Accurate Onboard Predictions for Indoor Energy Harvesting using Random Forests**

Computer Engineering and Networks Laboratory, ETH Zurich, Switzerland

## The best paper presentation:

53: Igor Pesek, Novica Nosović and Marjan Krašna:

### **The Role of AI in the Education and for the Education**

University of Maribor, Faculty of Arts, Slovenia

## The best female author and scientist:

21: Abeer Akkad, Dr. Gary Wills and Dr. Abdolbaghi Rezazadeh

### **An IoT-enabled Smart Grid: Definitions, Characteristics, Challenges, and Future Directions**

University of Southampton, Dept. of Computer Science, United Kingdom

## The best keynote:

192: Roberto Giorgi:

### **Extending Performance and Reliability via Modular FPGA Clusters**

University of Siena, Italy

## The Best Project Presented:

**SMART4ALL Project, University of Peloponnese**

### Chairs:

Lech Jozwiak

Radovan Stojanović
